

Terminal Blocks for Air Conditioner/ FA

- OTAX is dedicated to Terminal Blocks for Air Conditioners and is expanding its range of products.
- Not only for Air Conditioner, we also provide Terminal Blocks for FA products.
- We concentrate more on customized products than standard products. We accept orders of customized products utilizing our superb technology and high agility.
- Our highly reliable products are produced based on our long experience in electro-mechanical switches.

ATN-3PX (Built-in Thermal Fuse is available.)

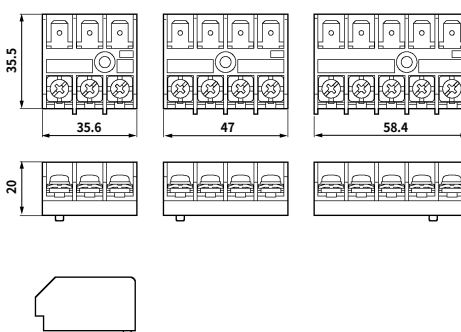

■ Specifications

Ratings /AC300V 20A
Thermal Fuse 102°C, AC250V
Contact Resistance /Max. 2mΩ
Insulation Resistance/Min. 100MΩ/DC500V
AC Withstand Voltage/AC2500V/1 min.

■ Features

Using proven highly reliable leaf springs.
Built-in Fuse between 1A to 3A is available upon request.
2 terminals can be connected to one pole.
Choice of terminals from horizontal and 30 degree, or TAB#250 and #187.
Legend labels can be selected.

TB-ETX-3P/4P/5P (Built-in Thermal Fuse is available.)

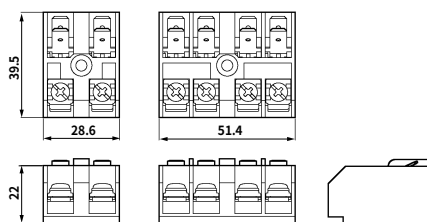

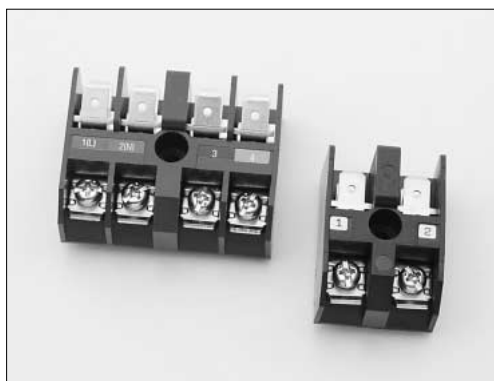

■ Specifications

Ratings /AC300V/25A
Thermal Fuse 102°C, AC250V 1A
Contact Resistance /Max. 2mΩ
Insulation Resistance/Min. 100MΩ/DC500V
Withstand Voltage/AC2500V/ 1min.

■ Features

Built-in Fuse is available upon request.
2 terminals can be connected to one pole.
Legend labels can be selected.

TB-ETG-2P/4P

■ Specifications

Ratings /AC300V 25A
Contact Resistance /Max.2mΩ
Insulation Resistance/Min. 100MΩ/DC500V
AC Withstand Voltage/AC2500V/ 1min.

■ Features

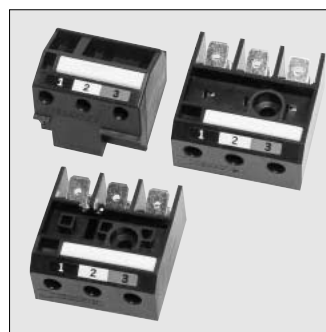

2 terminals can be connected to one pole.
Legend labels can be selected.

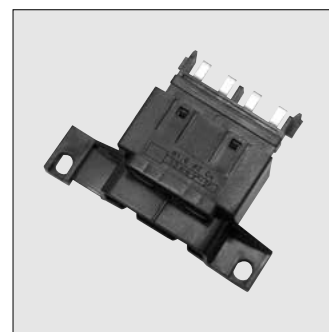

For FA products
